

## ***GY-HM700/710/750/790: Can the jvc GY-HM700L17 record at 35mb without the additional SxS Card attachment?***

Yes, the GY-HM700 can record in the 35mbps mode in either the MP4 or MOV formats without the SxS adapter. (Early models may require a firmware upgrade to record in the MP4 mode onto the SDHC card.)
